The Ancient Thebes and its Necropolis

UNESCO World Heritage Site (inscribed 1979), representing the pinnacle of Ancient Egyptian civilization. Thebes was the capital of Egypt for long periods during the Middle Kingdom and New Kingdom eras. It was the holy city of Amun and the religious capital for most of Egypt's history.

The main monuments date from the period from 1500 to 1000 BCE and include colossal temples at Karnak and Luxor and royal tombs in the Valley of the Kings and the Valley of the Queens. Some of the best known are the Mortuary temple of Hatshepsut and the Tomb of Tutankhamun.

Key UNESCO World Heritage Components in Luxor:

East Bank (City of the Living)

Karnak Temple Complex: One of the largest religious structures ever built, dedicated to Amun-Ra.

Luxor Temple: An ancient complex known as "the southern sanctuary," once connected to Karnak by the 2.7 km Avenue of Sphinxes.

West Bank (City of the Dead)

Valley of the Kings: The burial site of numerous pharaohs, including Tutankhamun.
Valley of the Queens: Contains the tombs of royal wives and children.
Temple of Hatshepsut (Deir al-Bahari): A magnificent mortuary temple.

The Ramesseum & Medinet Habu: Major mortuary temples of Ramesses II and Ramesses III.

Colossi of Memnon: Massive statues of Amenhotep III.

Planning your visit

Planning a trip to Luxor, the site of ancient Thebes, can be one of the most rewarding experiences for anyone interested in history, archaeology, or ancient civilizations. It's home to some of the most famous temples and tombs in the world, and with a bit of preparation, your visit can be both enjoyable and memorable.

Getting There

Luxor is well connected by air, road, and rail. The easiest way to get there is by flying into **Luxor International Airport**, which has regular domestic flights from Cairo and some international connections.

You can also take an overnight train from Cairo, which is a more scenic and budget-friendly option. Long-distance buses are available, though they tend to be slower.

Where to Stay

There are plenty of accommodation options in Luxor, ranging from budget guesthouses to luxury hotels. Many people choose to stay on the **east bank**, where most of the modern city, restaurants, and shops are located. If you prefer a quieter, more rural atmosphere, the **west bank** also has some charming places to stay and is closer to the tombs and valleys

Highly recommended:

The best time to visit Luxor

Spring (March–May) and **Autumn (September–November)**
? Comfortable weather
? Manageable crowds
? Best for walking, sightseeing, and photos.

Tickets and Entry : sites require an entry ticket, and these are sold at ticket offices near the entrances .

What to Bring : **Comfortable shoes**, Glasses, Water-Camera or Phone-Cash.

Les forêts sèches de l'Andrefana

Elles constituent un site sériel du patrimoine mondial de l'UNESCO situé dans l'ouest et le sud-ouest de Madagascar. Initialement inscrit en 1990 sous le nom de **Réserve naturelle intégrale des Tsingy de Bemaraha**, le site a connu une extension majeure en 2023 pour inclure cinq nouvelles aires protégées, reflétant ainsi la quasi-totalité de la diversité écologique des forêts sèches malgaches.

Composition du site (6 aires protégées)

Le bien s'étend désormais sur plus de **730 000 hectares** et regroupe les parcs et réserves suivants :

- **Parc National de Bemaraha** (site originel) : célèbre pour ses formations calcaires acérées appelées "tsingy".
- **Parc National d'Ankarafantsika**.
- **Parc National de Mikea**.
- **Parc National de Tsimanampesotse**.
- **Réserve Spéciale d'Analamerana**.
- **Réserve Spéciale d'Ankarana**.

Pourquoi visiter ?

Importance écologique et biodiversité

Le site est reconnu pour sa **Valeur Universelle Exceptionnelle**, témoignant de l'isolement évolutif de l'île depuis des millions d'années :

- **Faune unique** : Il abrite des lémuriens rares, des reptiles endémiques et des lignées d'oiseaux très anciennes comme les **mésites** (vieilles de 54 millions d'années).
- **Flore adaptée** : La végétation comprend des forêts décidues sèches et des fourrés épineux, avec des espèces emblématiques comme les **baobabs** et les flamboyants

(Delonix).

Géologie : Outre les tsingy, le site présente des paysages karstiques, des canyons spectaculaires (comme celui de la rivière Manambolo) et des systèmes de grottes complexes.

Menaces et conservation

Bien que protégé, le site fait face à des défis majeurs tels que la **déforestation** (pour le charbon de bois et l'agriculture), le braconnage et le changement climatique. La gestion est assurée par le gouvernement malgache via Madagascar National Parks avec le soutien des communautés locales, notamment le peuple **Mikea**.

Comment s'y rendre depuis l'étranger ?

Étape 1 : Vol international

Prendre un vol depuis votre ville vers Antananarivo (la capitale)

Aéroport principal : Antananarivo - Ivato (TNR)

Compagnies aériennes : Air France, Corsair, Air Austral, Kenya Airways, Ethiopian Airlines, Madagascar Airlines.

Meilleure période : Septembre est généralement le mois le moins cher (moyenne 1 125 €), tandis que juillet et octobre sont plus onéreux.

Vols intérieurs : Assurés par Tsaradia (filiale de Madagascar Airlines), indispensable pour se déplacer car le réseau routier est difficile.

Conseils pratiques

Prendre un 4x4 obligatoire (routes difficiles)

Guide local recommandé (zones protégées)

Où dormir?

Hôtel

Lodge

Lodges recommandés :

- Le Soleil des Tsingy
- Olympe du Bemaraha
- Le Grand Hôtel du Tsingy
- Tanankoay Lodge
